Note:

Two versions of this set have been found with different print codes on the front of the boxes: one with 196397 and one with 196399. These two boxes show different set contents printed on the top of them despite the fact that the total piece count is listed as the same on both. Even though these printed inventories are different, preliminary inspection of the sealed set contents of both versions revealed that they seemed to both contain the parts that are listed in this inventory.
